Minutes of September 23, 2010

The Special Meeting was called to order at 7:00 p.m. in the Mendocino High School, Matheson Performing Arts Building. Present were Directors Kraynek, Schwartz and O'Brien. Also present were Steve Acker, Mike Kelley, Edward Allen and Attorney James Jackson. Secretary Mitchell was not present.

The public was given an opportunity to comment regarding items on the meeting agenda.

Michael Maley, Kennedy/Jenks & Associates, provided a technical memorandum documenting the work performed for the 2009 Groundwater Model Update of the Mendocino Headlands. Mr. Maley presented the results of the Annual MCCSD Groundwater Model Update.

Director O'Brien suggested that the District be provided with bi-annual MCCSD Groundwater Model Updates, as opposed to an annual update.

Respectfully submitted,

Michael Kelley
